ANDAMAN7

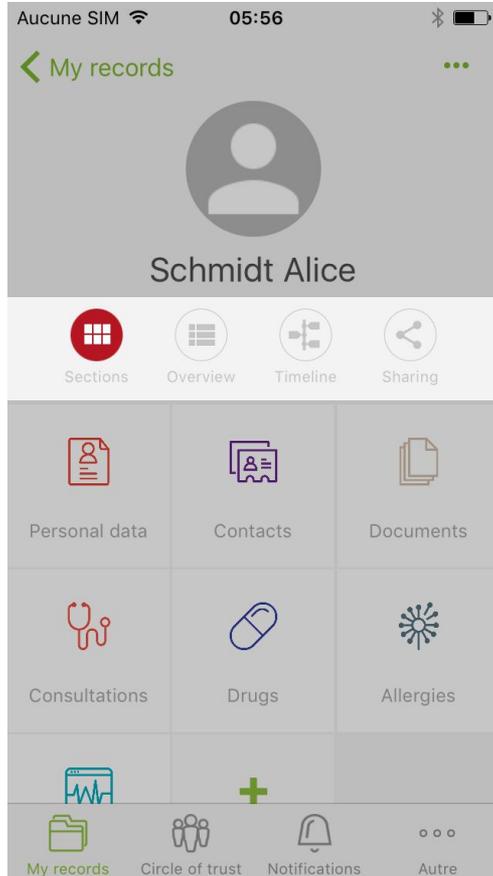

USER GUIDE V2

MAIN MENU

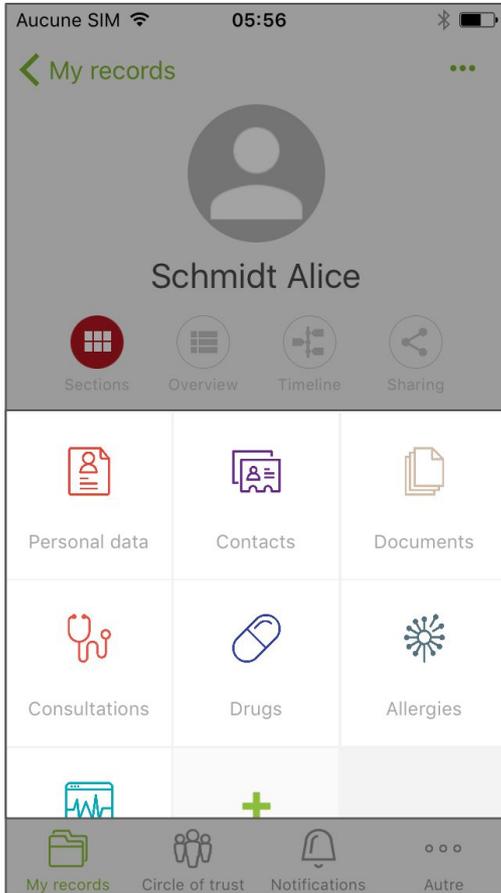

- Access to the main sections of the app
- 3 different parts :
 1. Views and sharing
 2. Health record sections
 3. Menu bar

MAIN MENU- Views and sharing

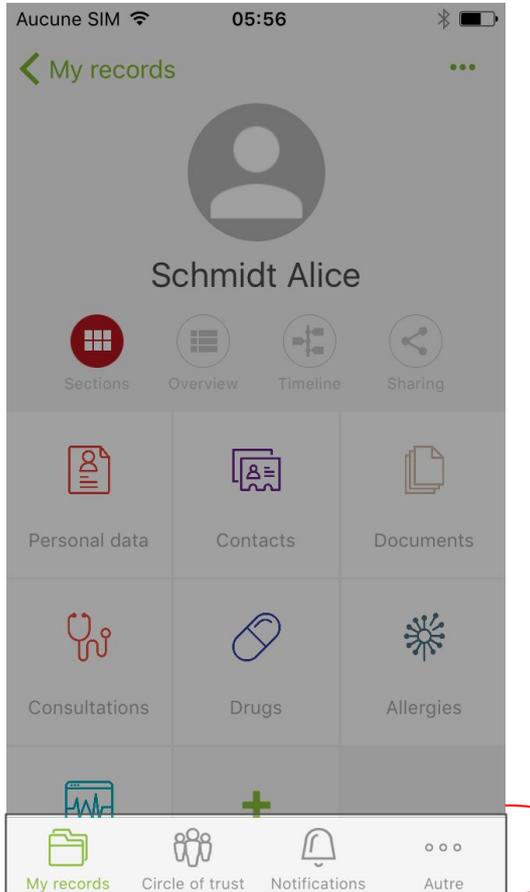

-  The **section view** displays sections from a health record as icons.
-  The **overview displays** the most important parts of your health record in a streamlined, simple, linear view. Use it to quickly tell a new doctor what is essential about your health.
-  The **Timeline view** displays elements from a health record in chronological order (or reverse), as a timeline.
-  The **Sharing button** allows to share a health record (all or parts of it)

MAIN MENU - Sections of a health record

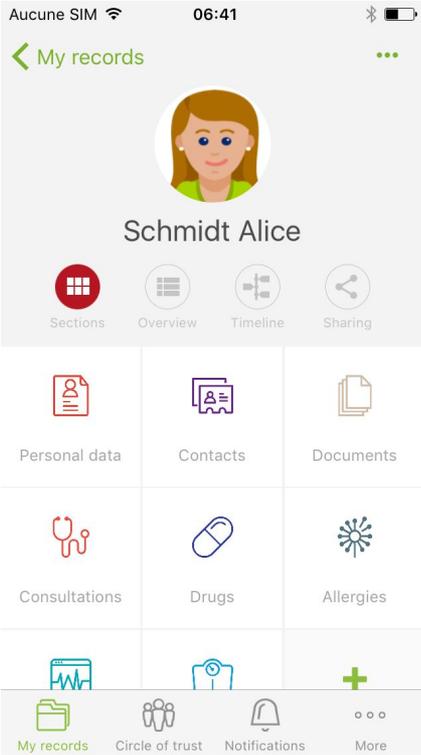

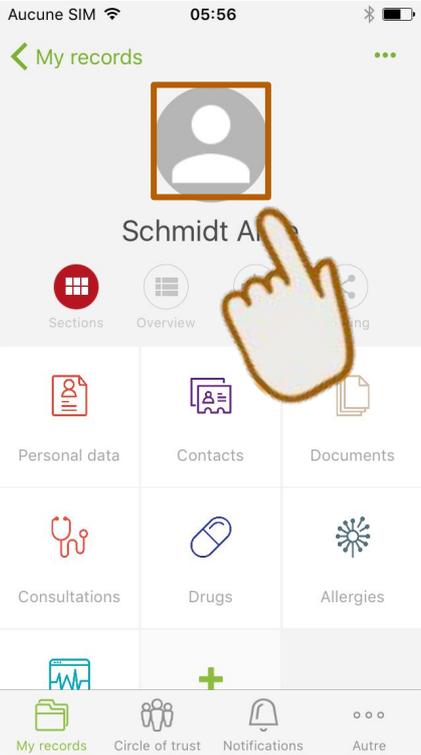

- Displays the 7 most used sections by default
- Allows users to add sections by pressing the “+” button

MAIN MENU- The menu bar

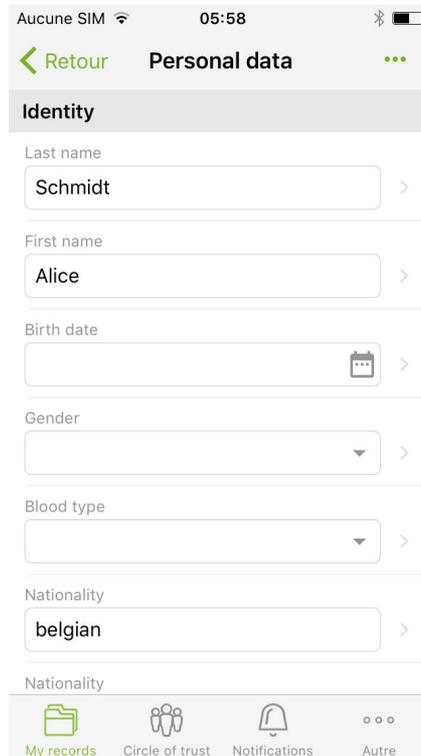

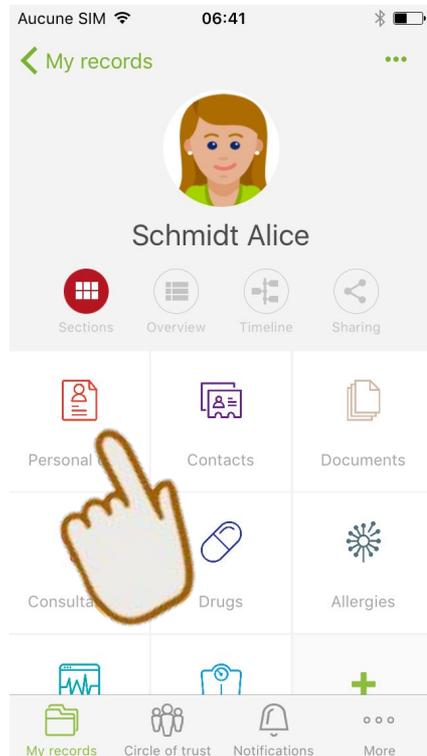

- Allows an easy navigation among the different sections of the app
- The “More” button shows additional sections not visible in the menu bar

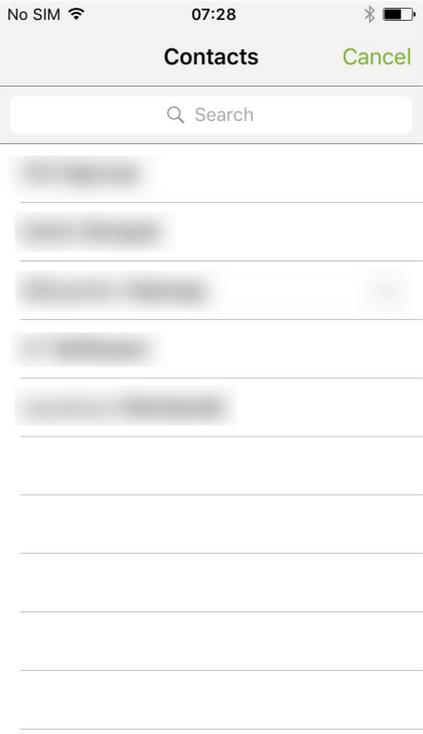

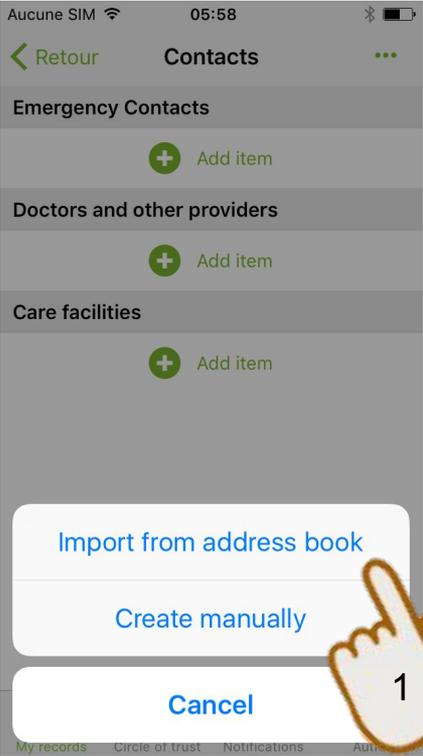

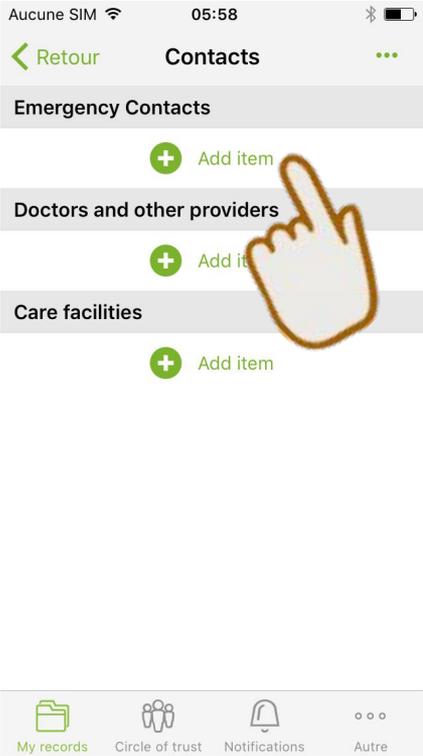

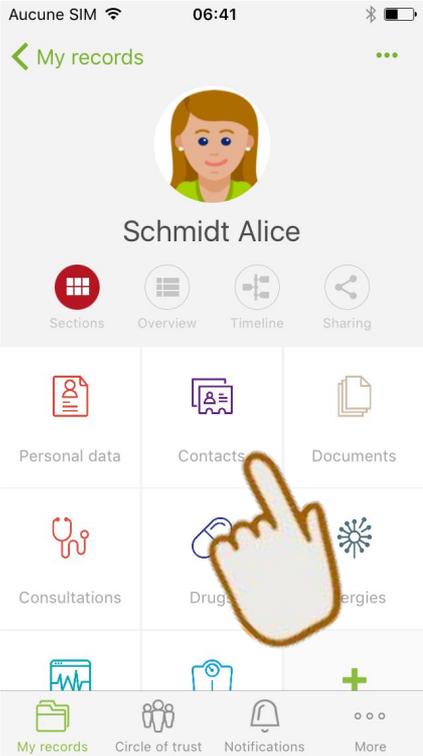

MY HEALTH RECORD - Adding a profile picture

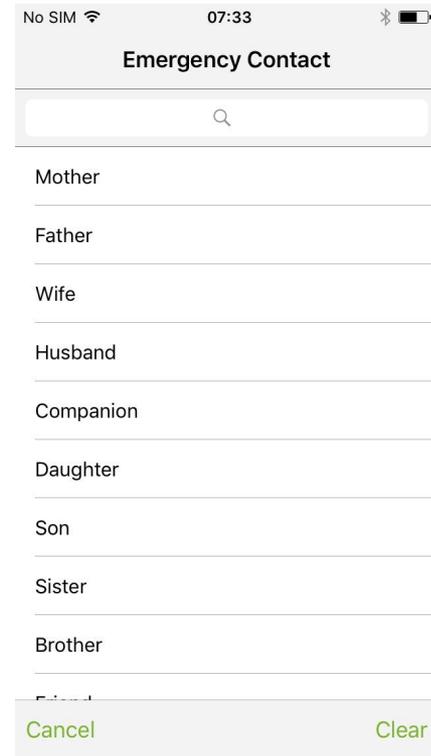

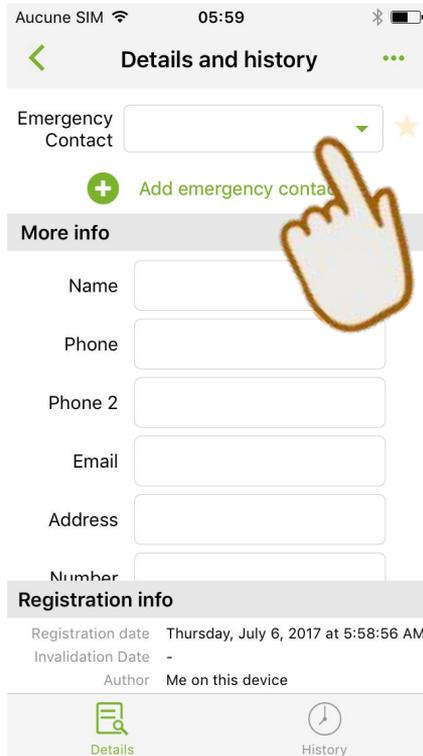

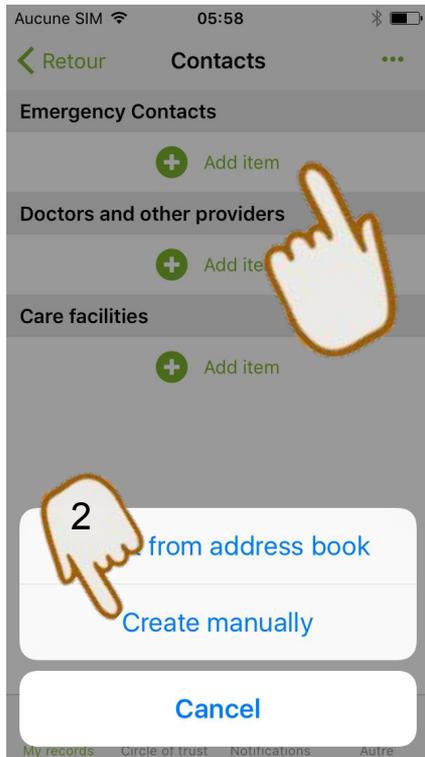

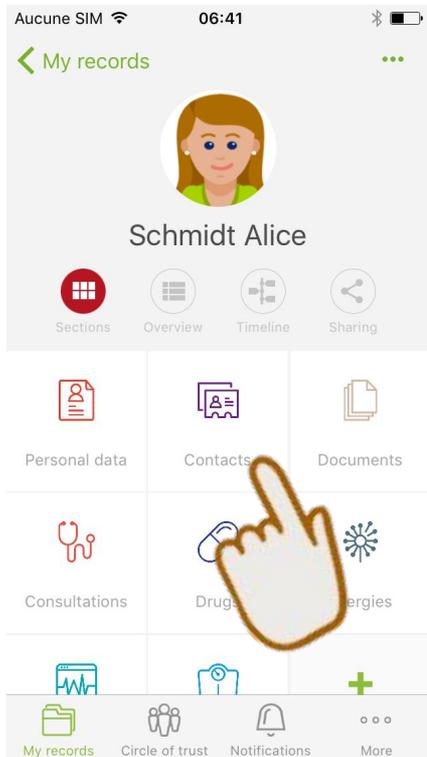

MY HEALTH RECORD - Completing my personal data

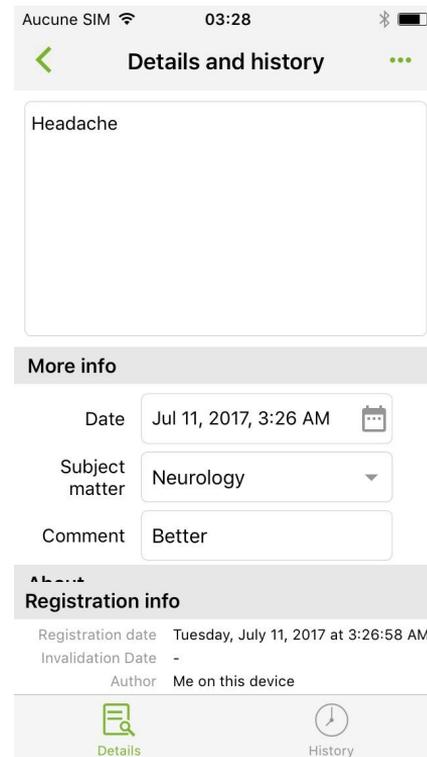

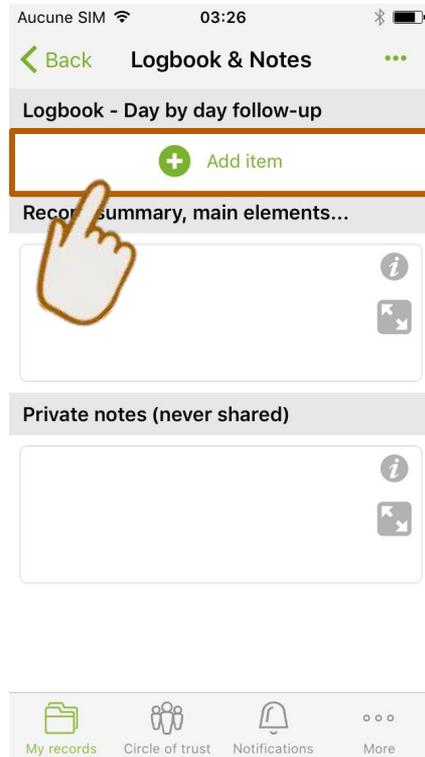

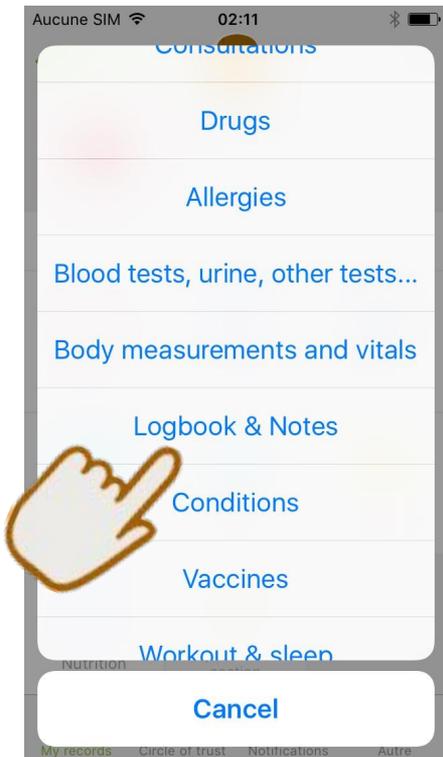

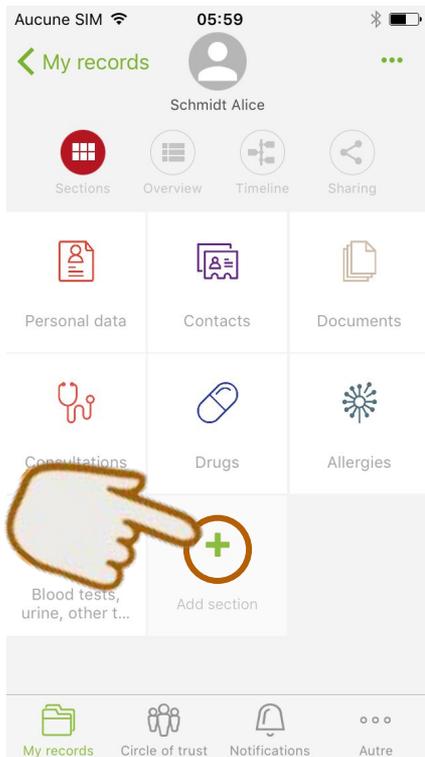

MY HEALTH RECORD - Adding an emergency contact (1)

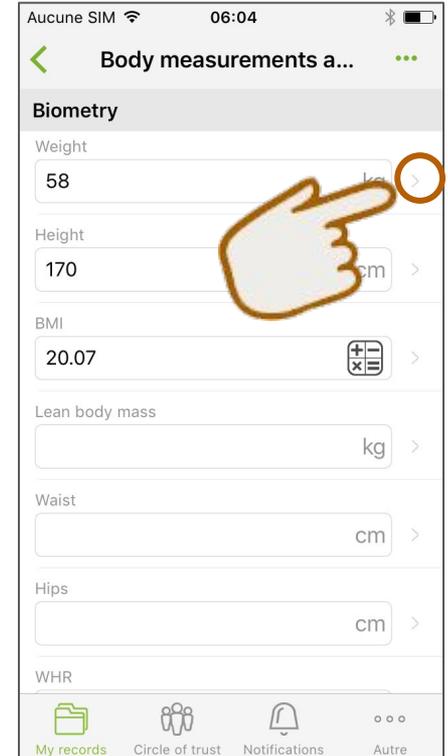

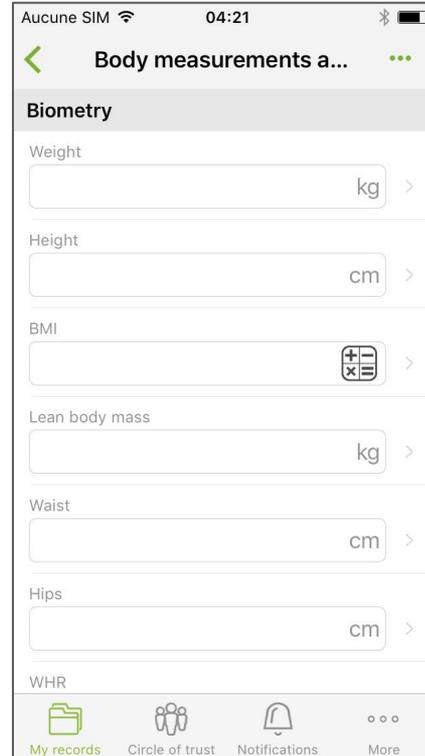

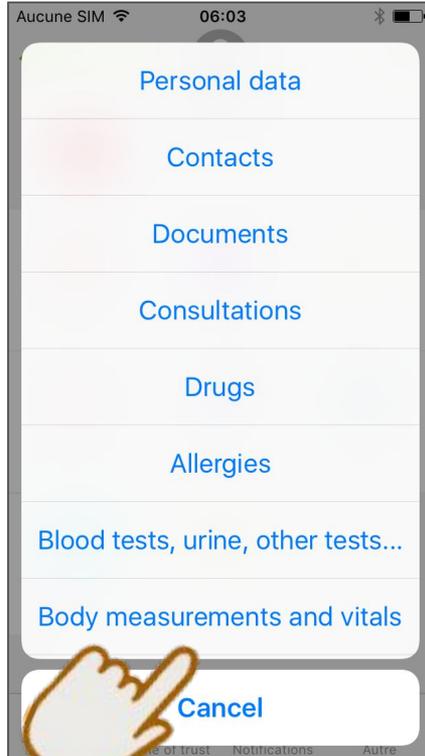

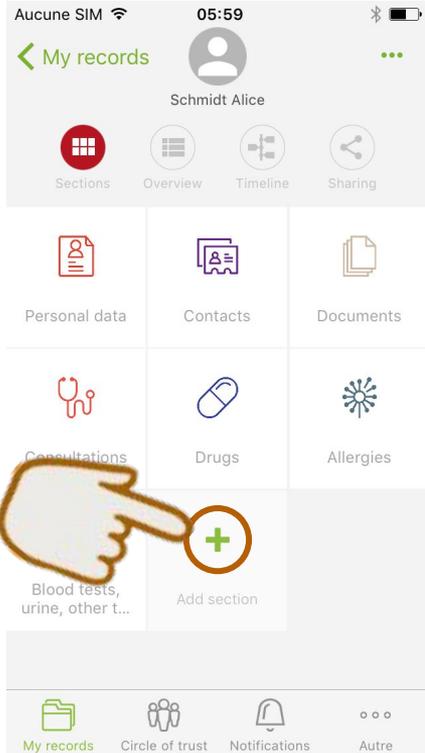

MY HEALTH RECORD - Adding an emergency contact (2)

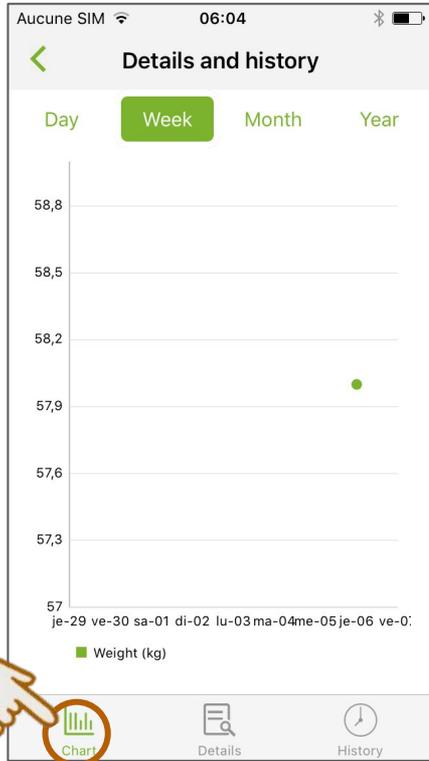

MY HEALTH RECORD - Adding & completing a section

MY HEALTH RECORD - Details of medical data (Access)

MY HEALTH RECORD - Details of medical data (3 screens)

This screenshot shows the 'Details' view of the weight data. It displays the value '58 kg' and provides options to 'Add value'. Below this, there is a 'More info' section with fields for 'Date' (Jul 6, 2017, 6:04 AM), 'Unit' (kg), and 'Comment'. An 'About' section contains a message about translation. A 'Registration' section shows the registration date as Thursday, July 6, 2017 at 6:04:28 AM. A hand icon with the number '2' points to the 'Details' icon in the bottom navigation bar.

2. Details
3. History

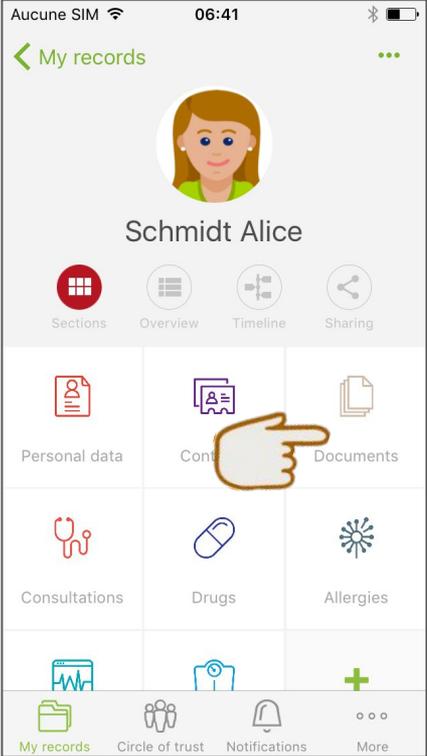

MY HEALTH RECORD - The sections

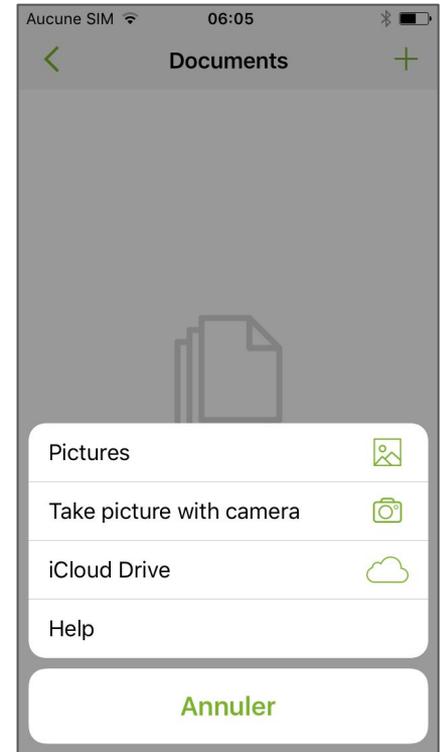

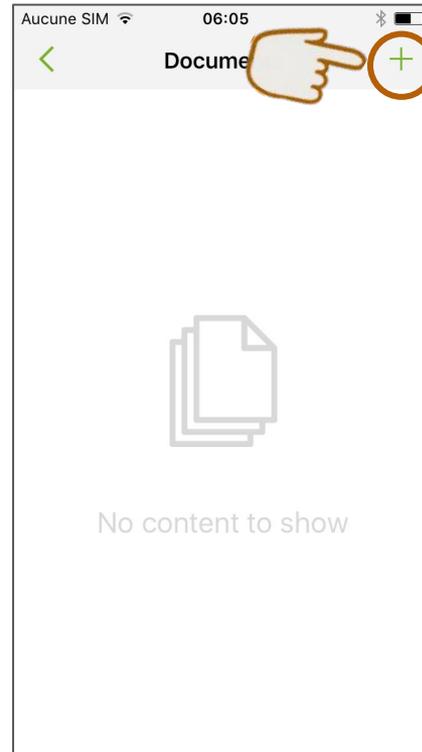

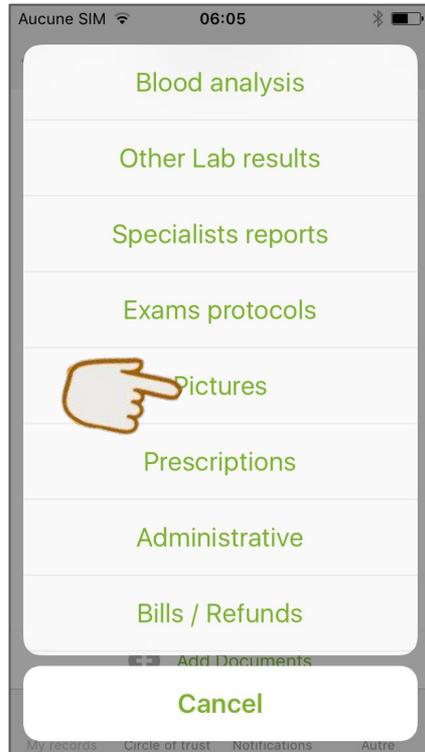

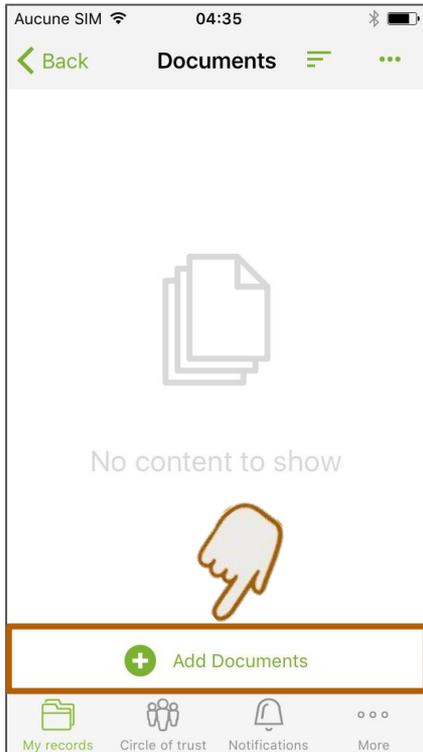

To display all sections of a health record (even the empty ones):

- Click on the option menu
- Select “Display all sections”

MY DOCUMENTS - Access

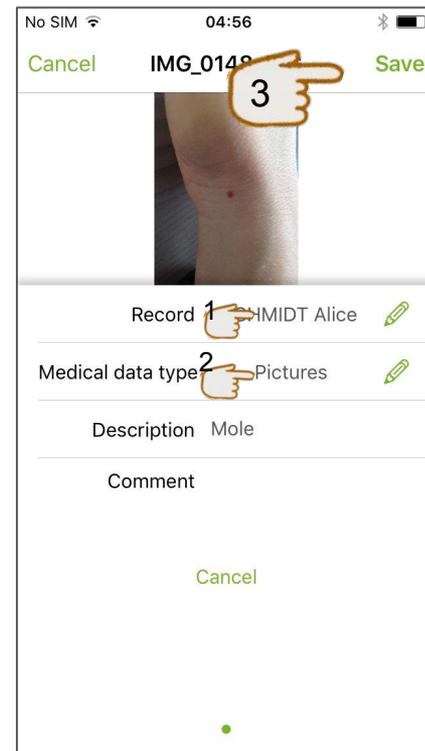

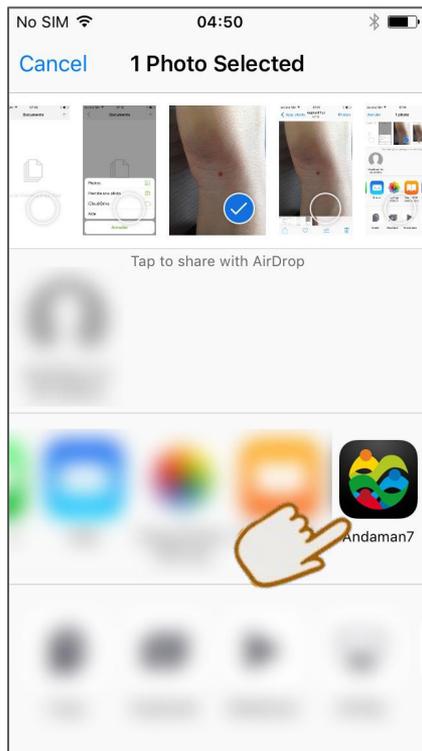

MY DOCUMENTS - Adding 1 document (1)

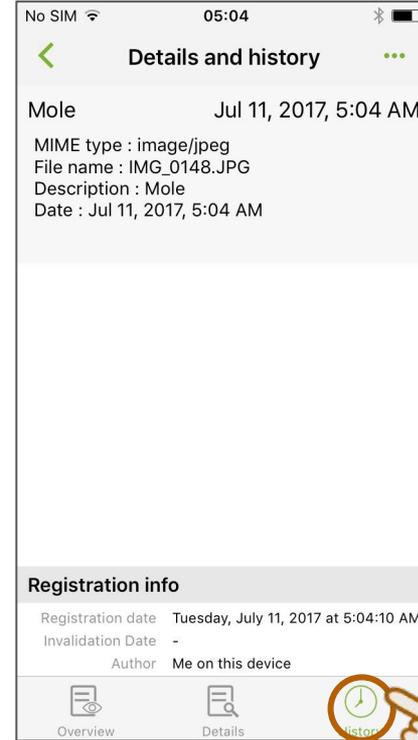

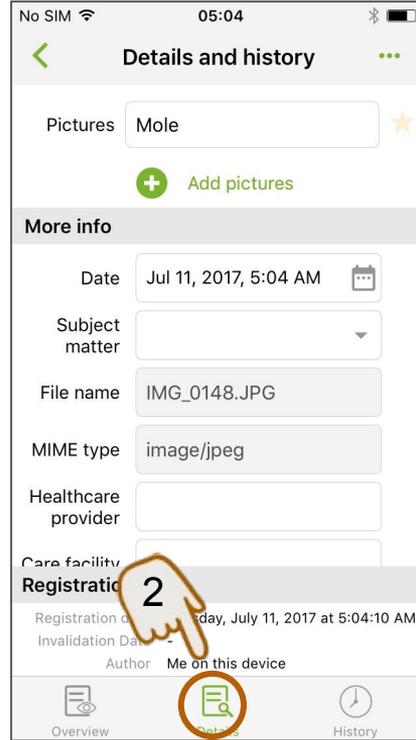

⇒ From the Andaman7 app and by searching your Smartphone's documents

MY DOCUMENTS - Adding 1 document (2)

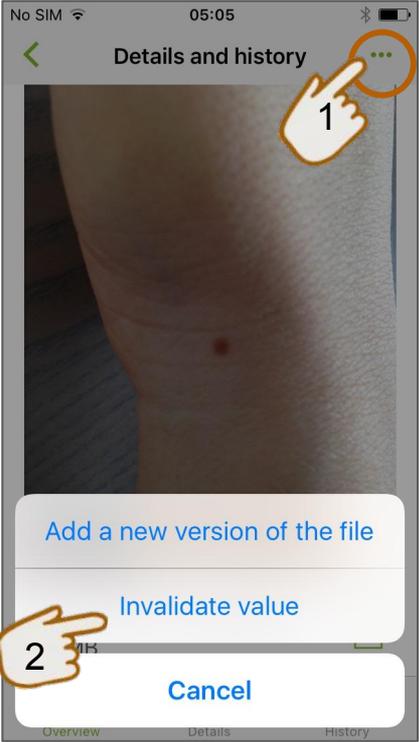

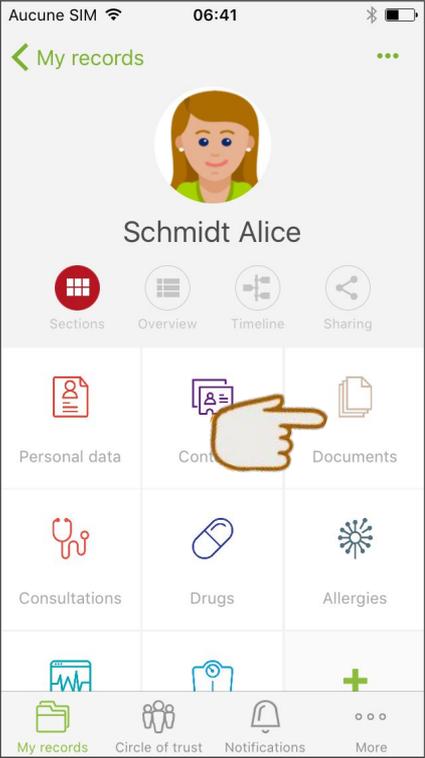

⇒ Directly from a document (email attachment, photo already taken, scan, etc)

MY DOCUMENTS - The 3 screens of details of a document

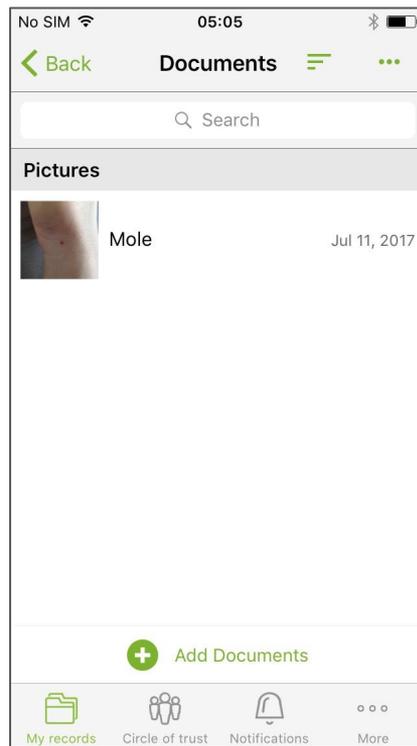

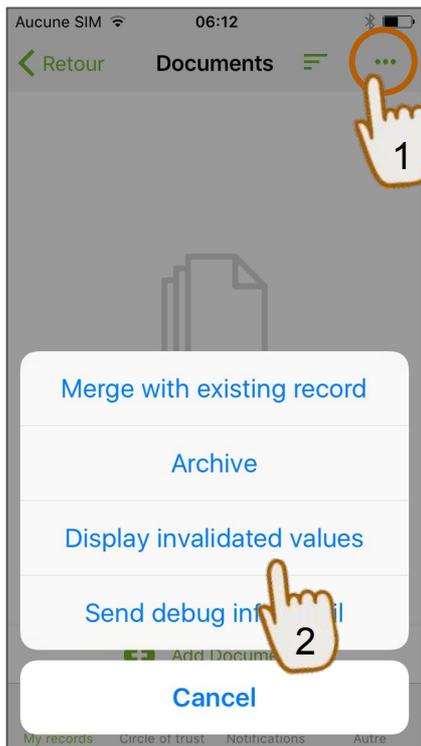

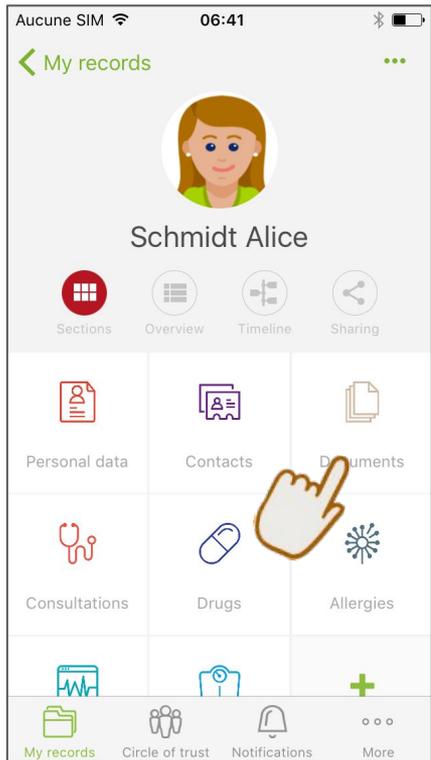

1. Preview
2. Details
3. History

MY DOCUMENTS - Deleting a document (invalidating)

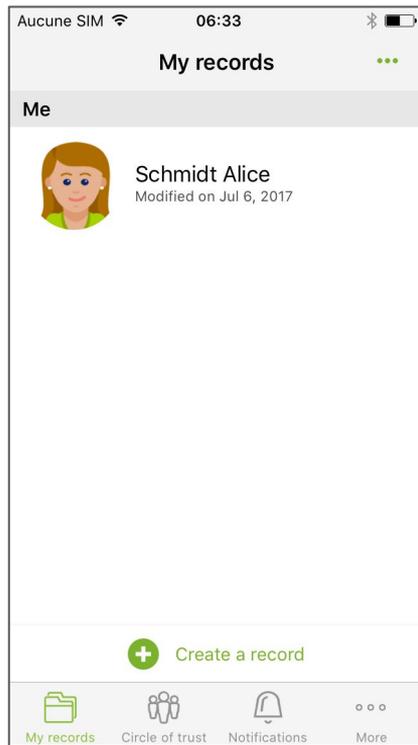

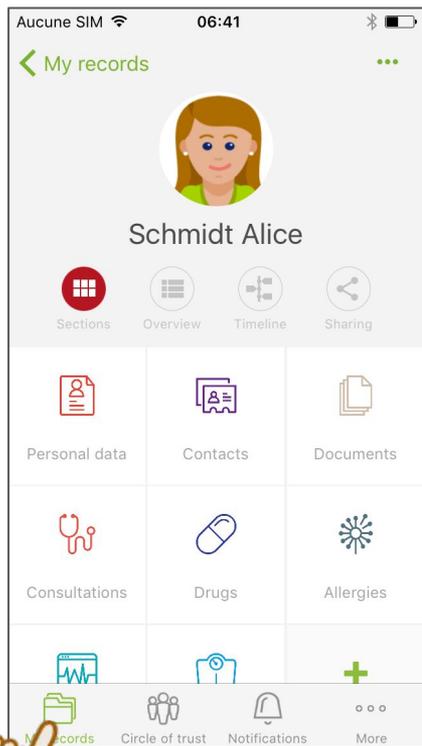

MY DOCUMENTS - Display invalidated documents

Note:

To hide invalidated documents, simply repeat the procedure

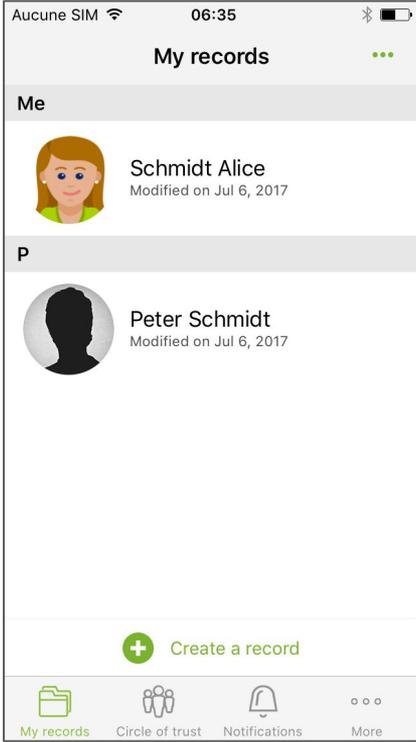

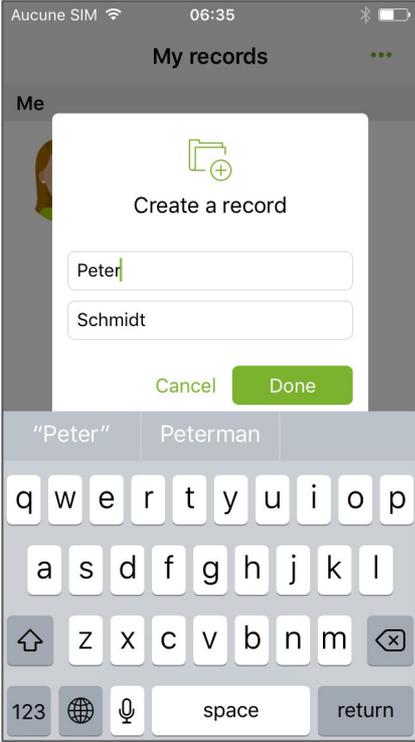

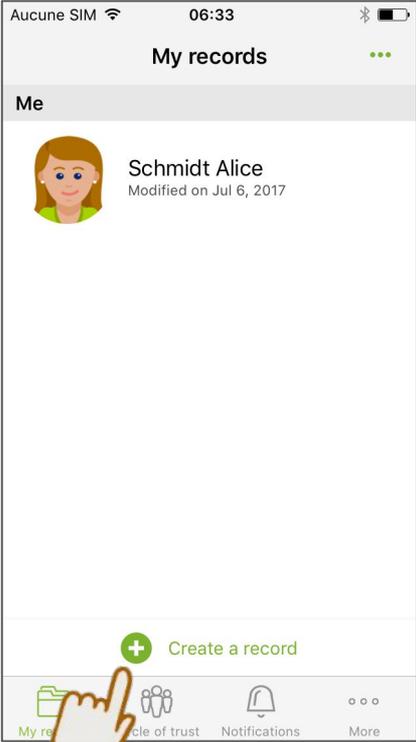

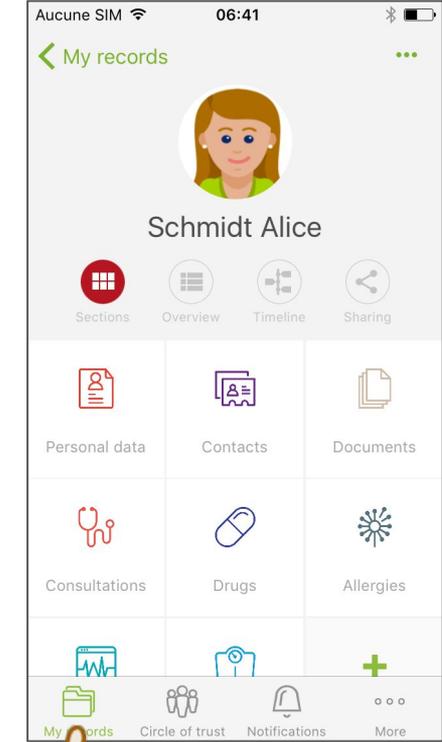

OTHER HEALTH RECORDS - Access

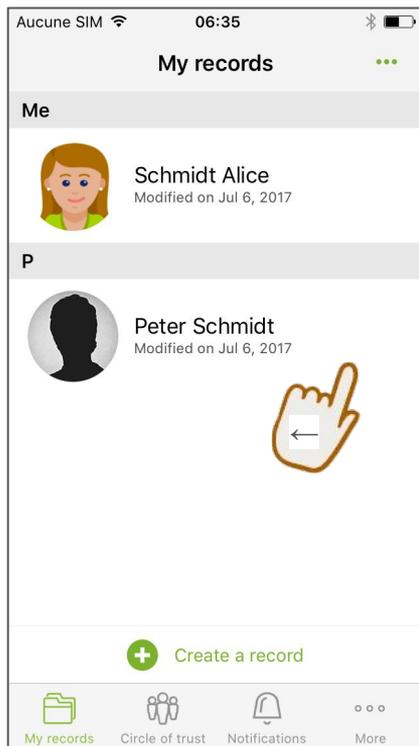

Note:

By default, only one health record will be available: your own. You can add as many health records as you want. See how to add records next page.

OTHER HEALTH RECORDS - Create a health record

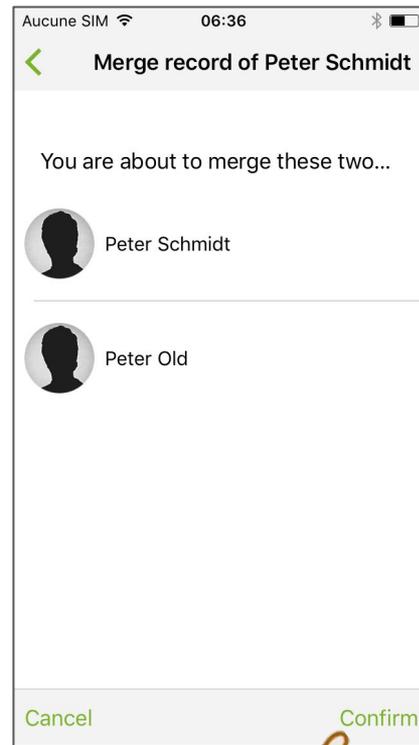

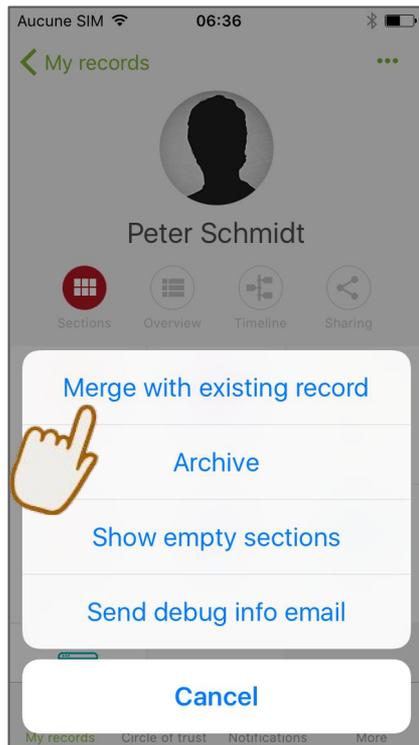

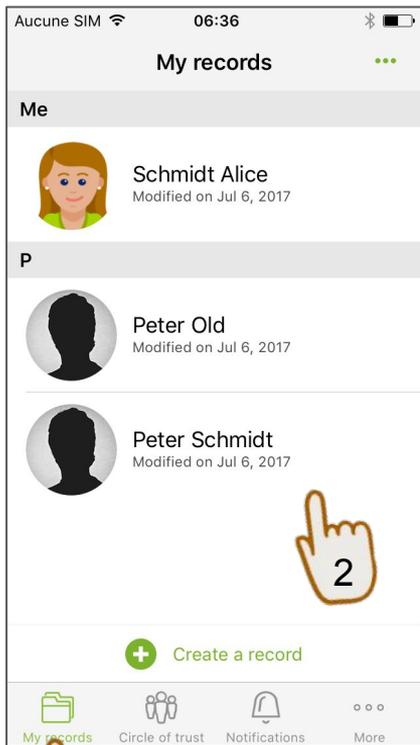

OTHER HEALTH RECORDS - Delete a health record

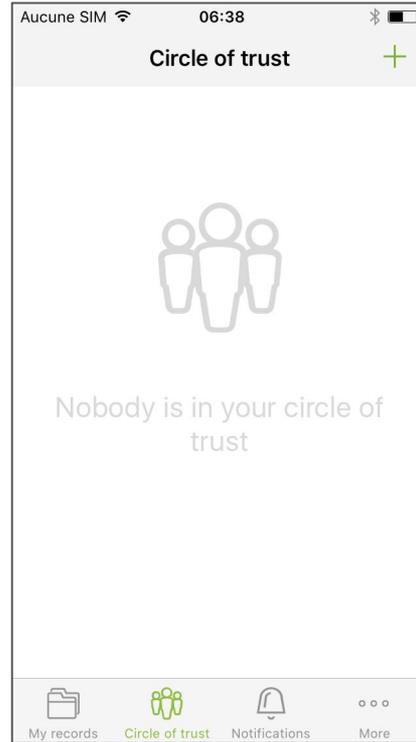

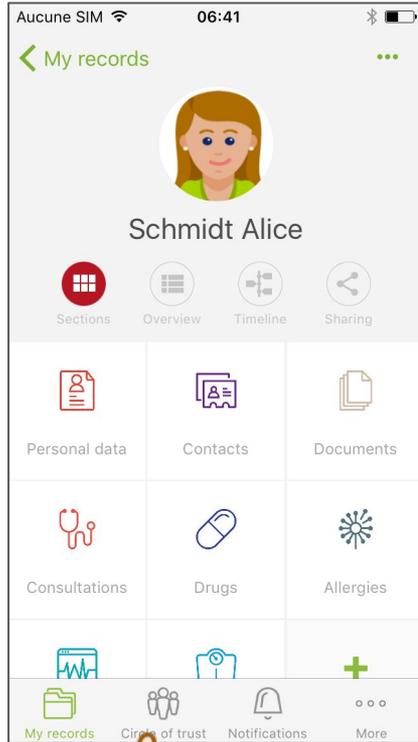

- Be sure to do a “swipe” from right to left to archive a health record
- Records are "archived" and not "deleted" to allow you to have a complete and precise traceability of the data in Andaman7

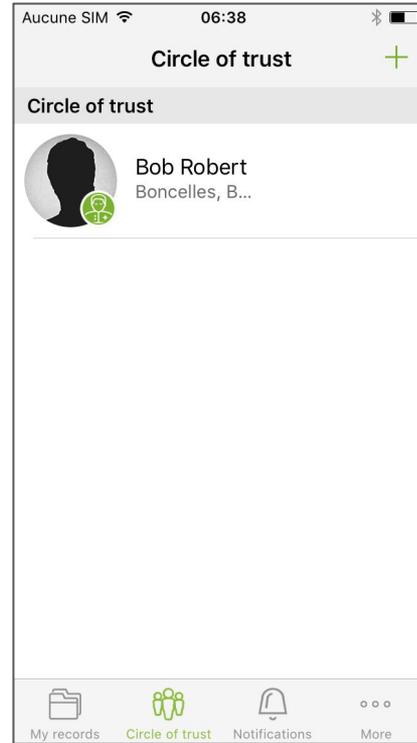

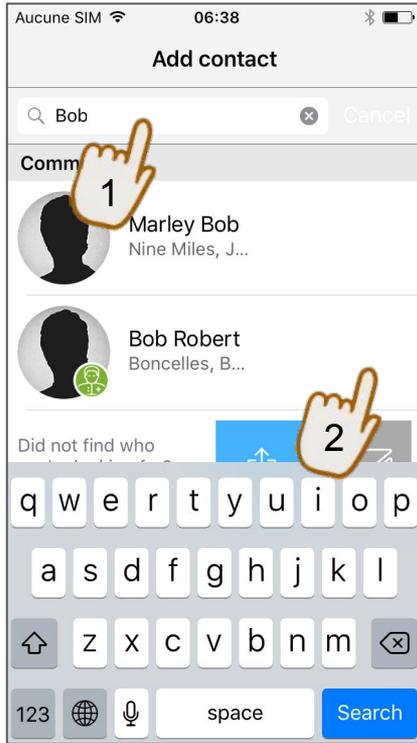

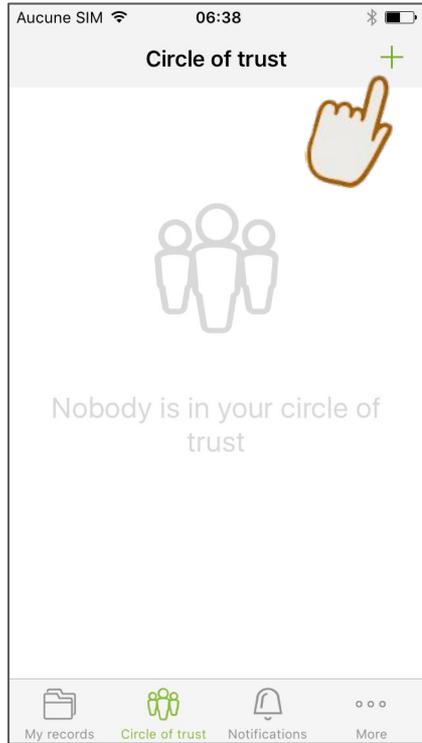

OTHER HEALTH RECORDS - Merge 2 health records

CIRCLE OF TRUST - Access

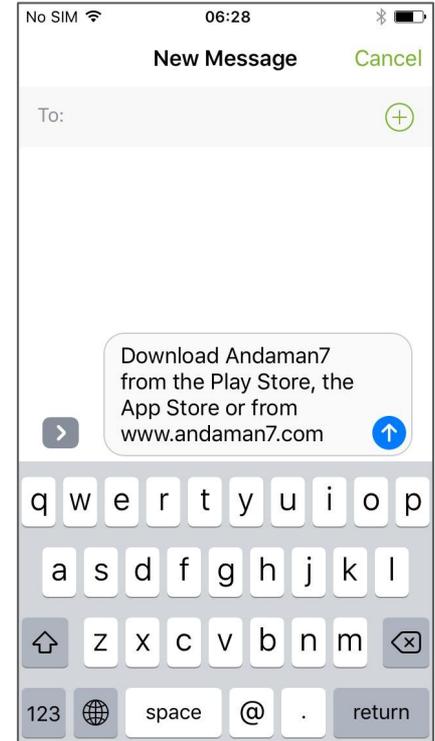

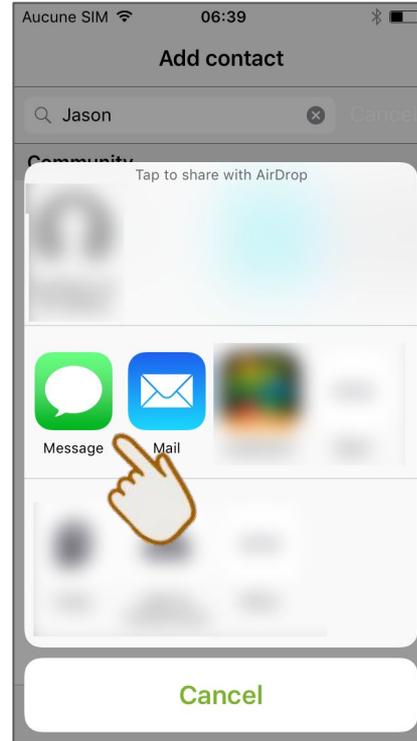

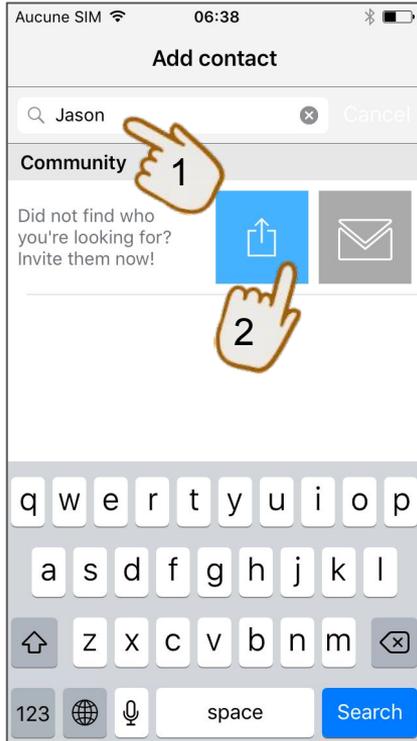

CIRCLE OF TRUST - Adding a contact from the community (1)

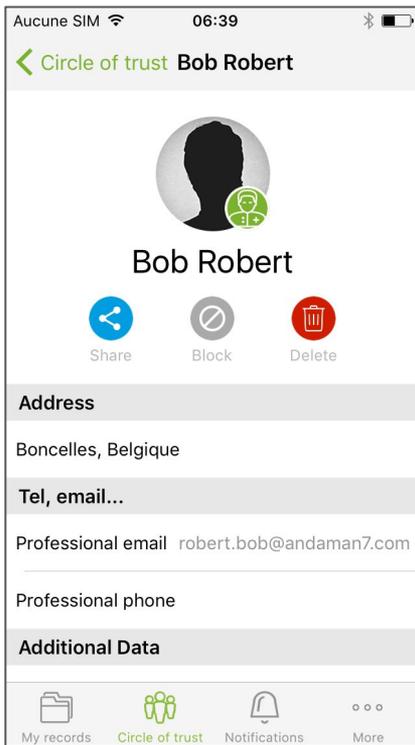

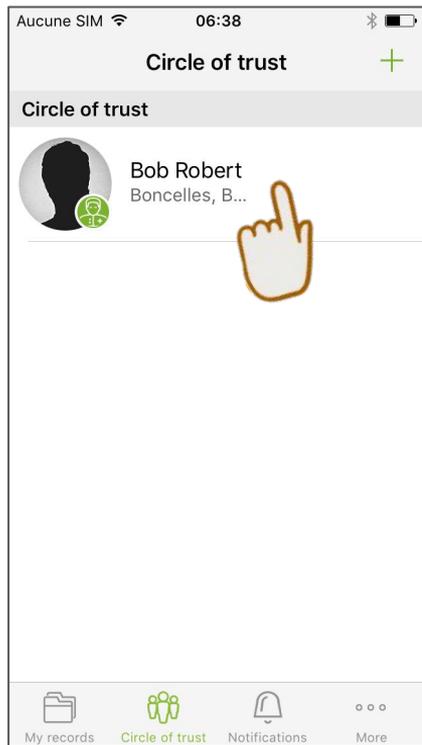

⇒ Contact is already part of the Andaman7 community (she has an active account)

CIRCLE OF TRUST - Adding a contact from the community (2)

⇒ The contact is **not yet** part of the community ⇒ invite

CIRCLE OF TRUST - Contact screen

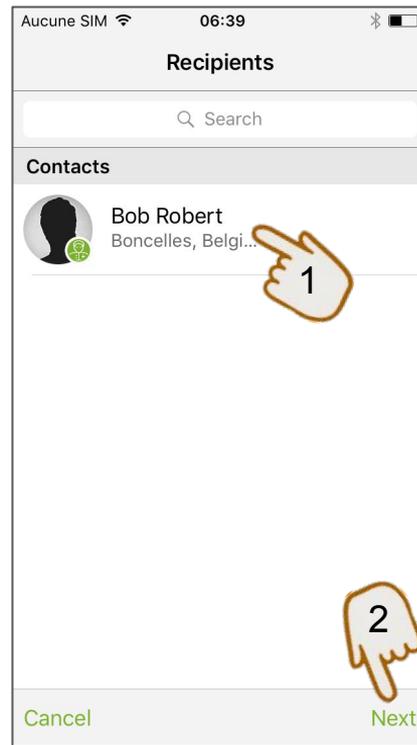

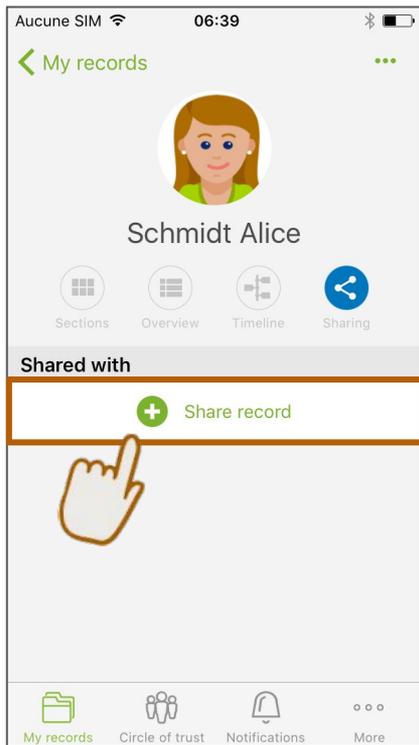

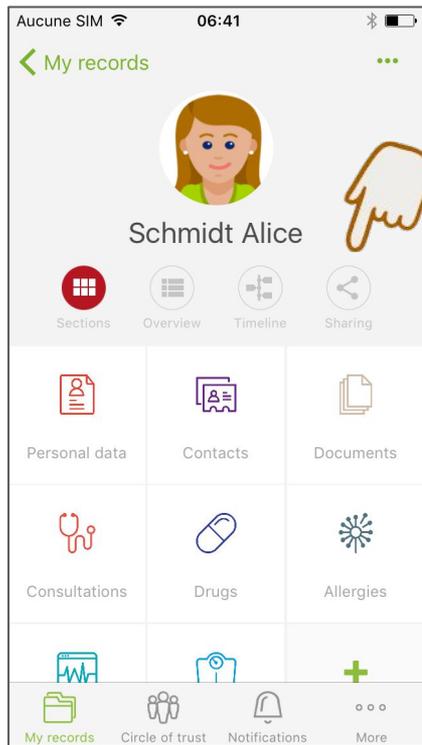

1. The actions

-  Allows to create a new sharing rule for that contact
-  Prevents from receiving data from the contact
-  Remove the contact from the Circle Of Trust

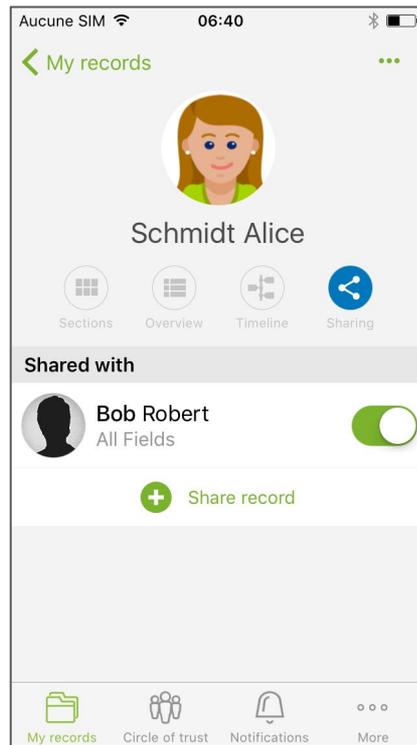

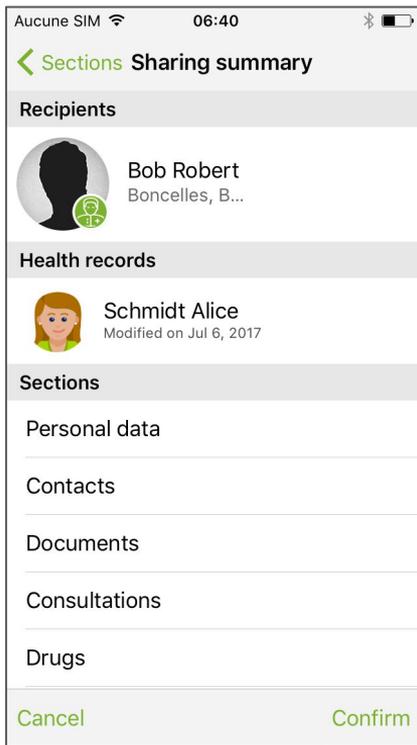

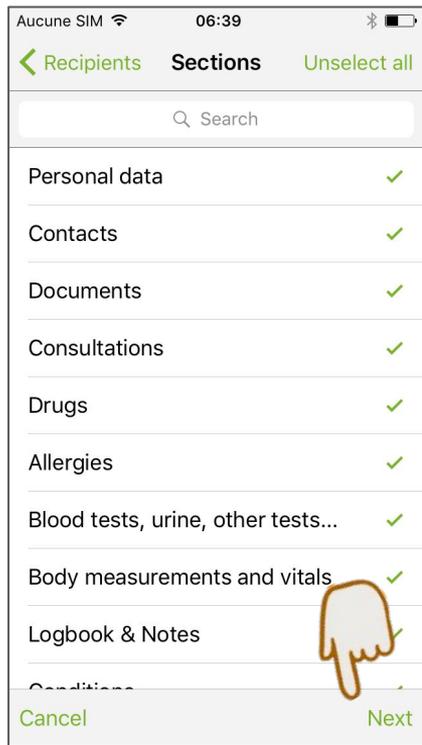

2. The administrative data of the contact

CIRCLE OF TRUST - Sharing a health record (1/2)

This shares the medical record of Alice to Bob

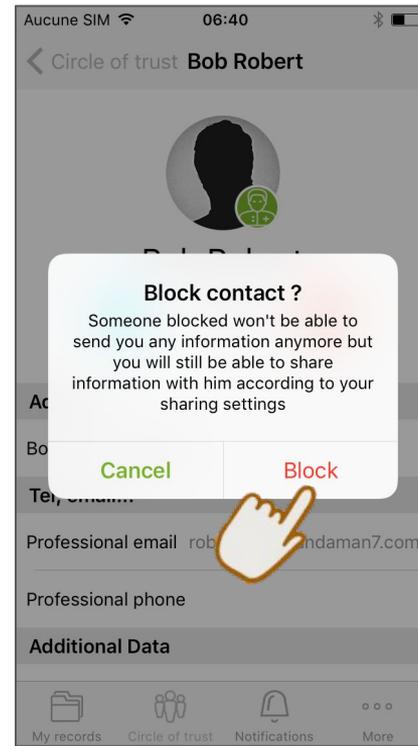

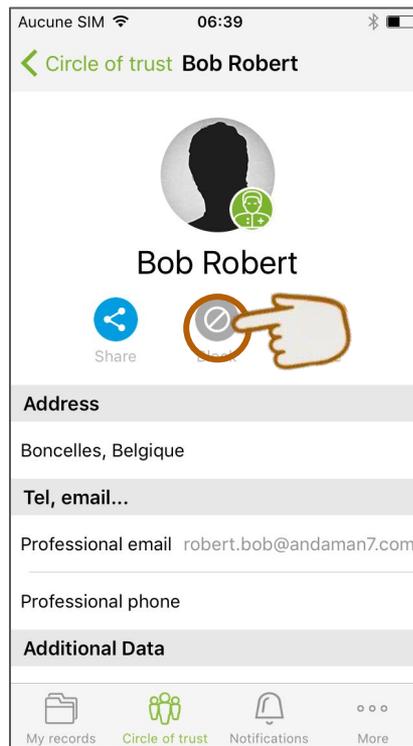

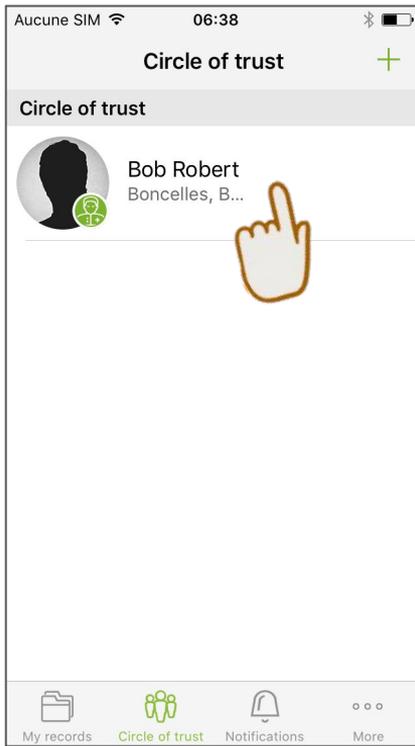

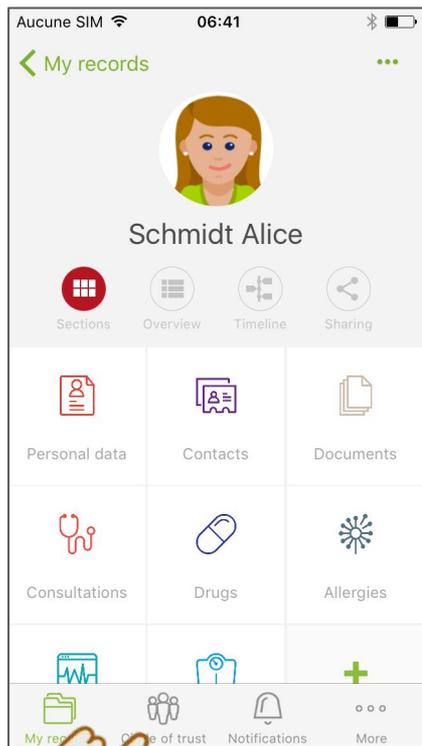

CIRCLE OF TRUST - Sharing a health record (2/2)

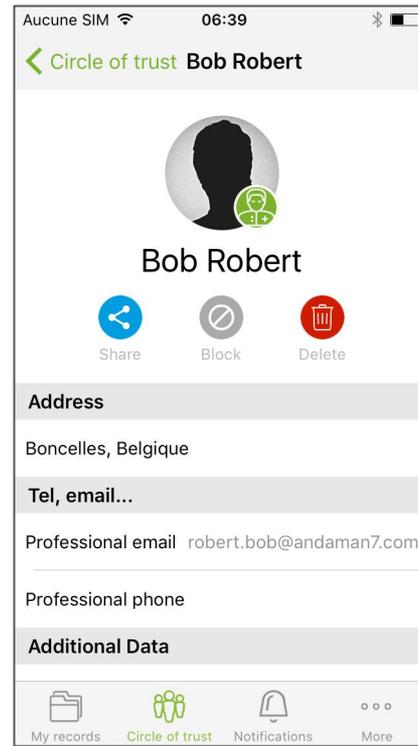

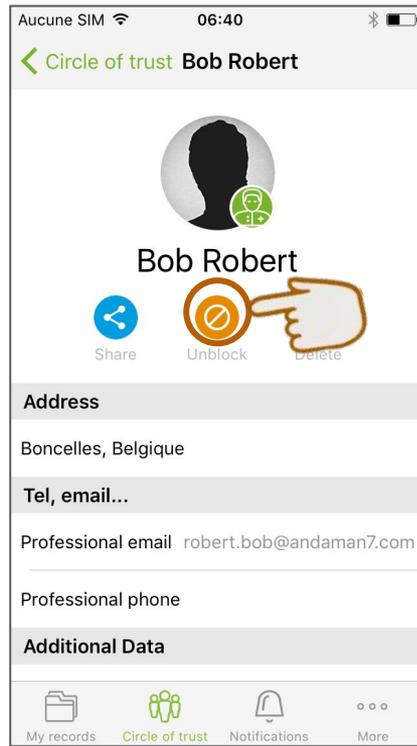

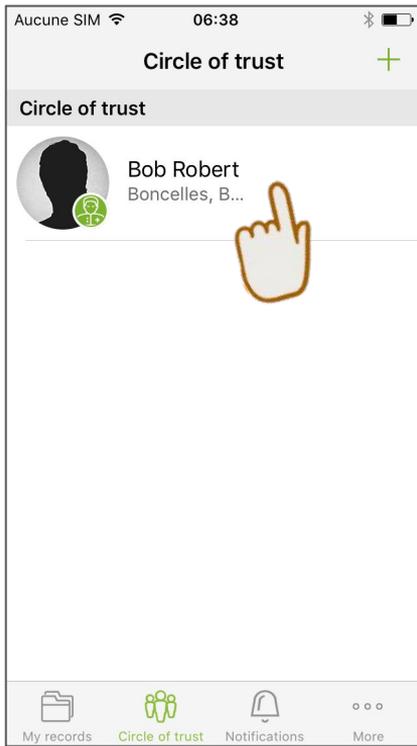

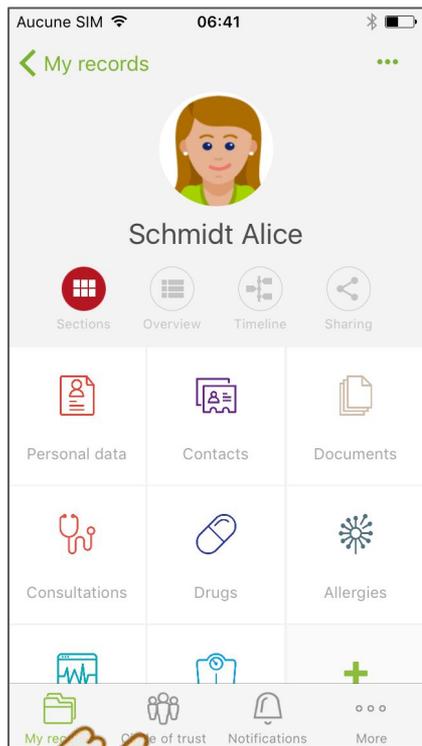

Select sections to share or all of them

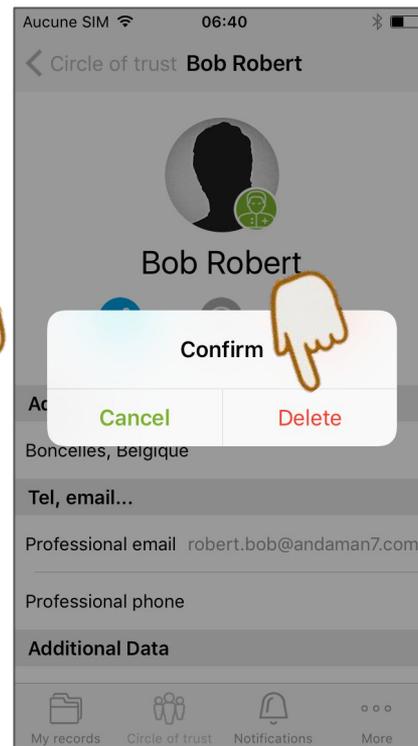

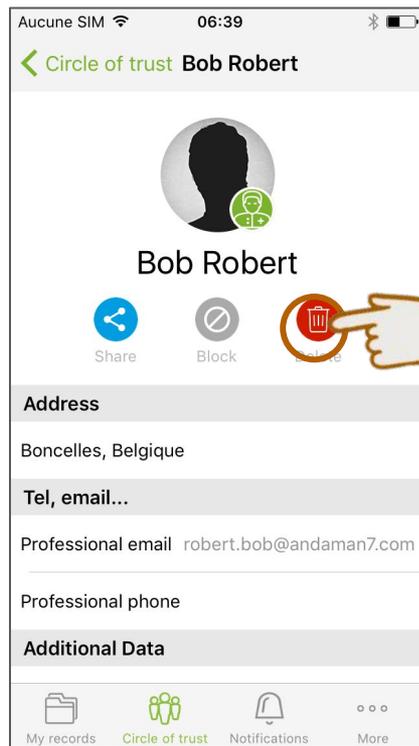

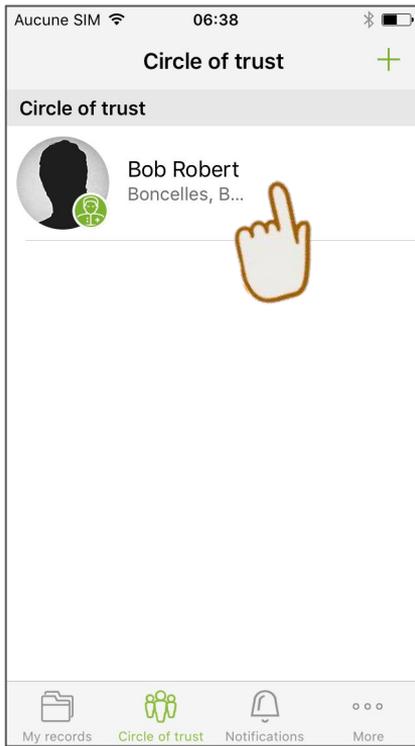

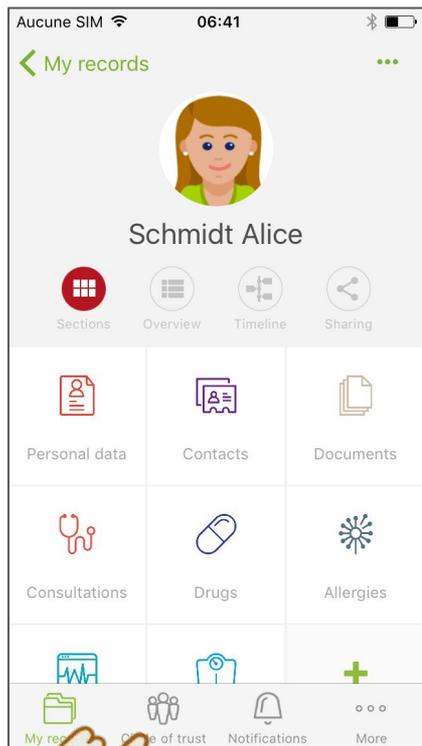

CIRCLE OF TRUST - Blocking a contact

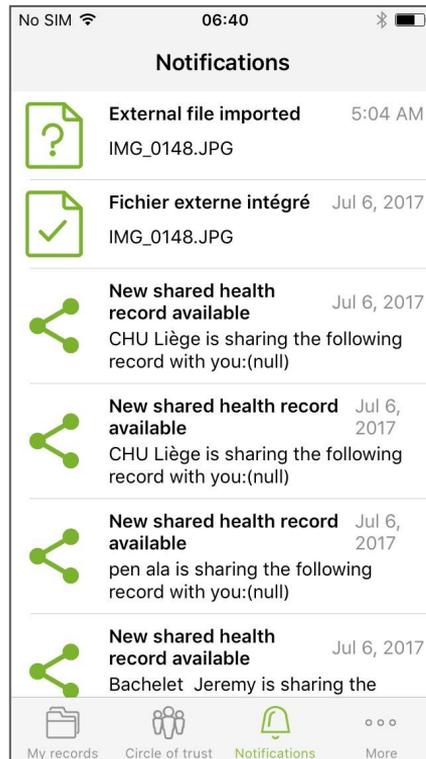

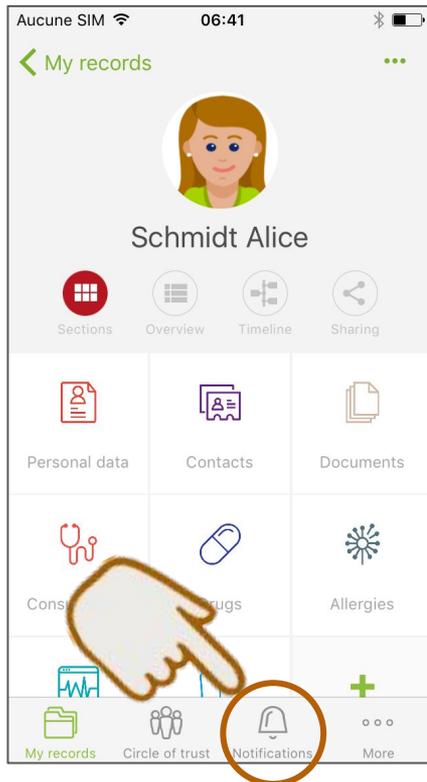

CIRCLE OF TRUST - Unblocking a contact

CIRCLE OF TRUST - Deleting a contact

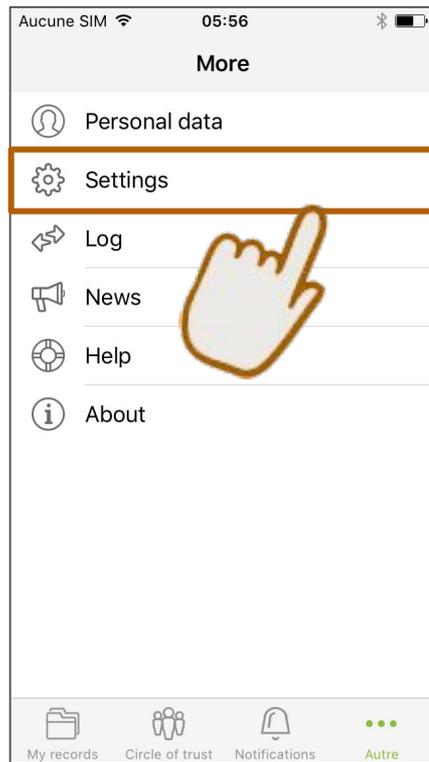

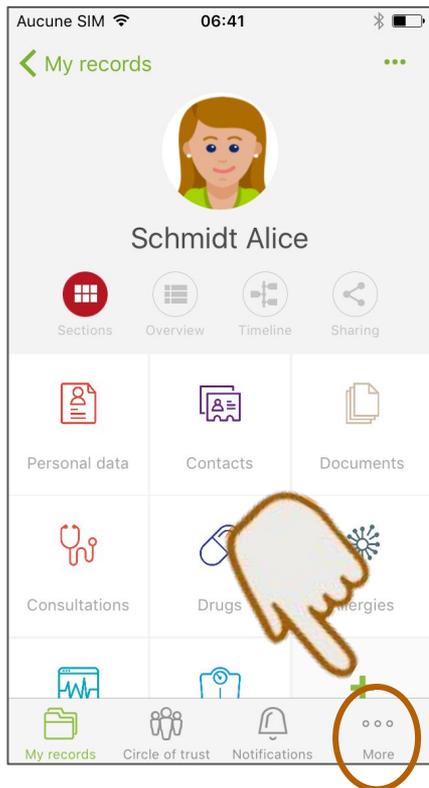

THE MENU BAR - Notifications

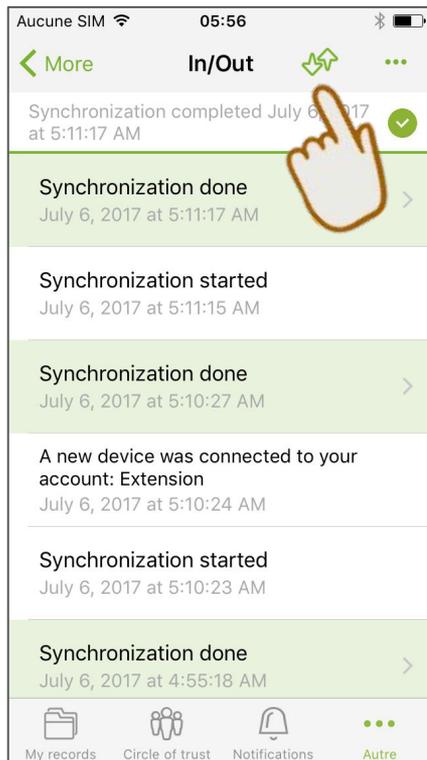

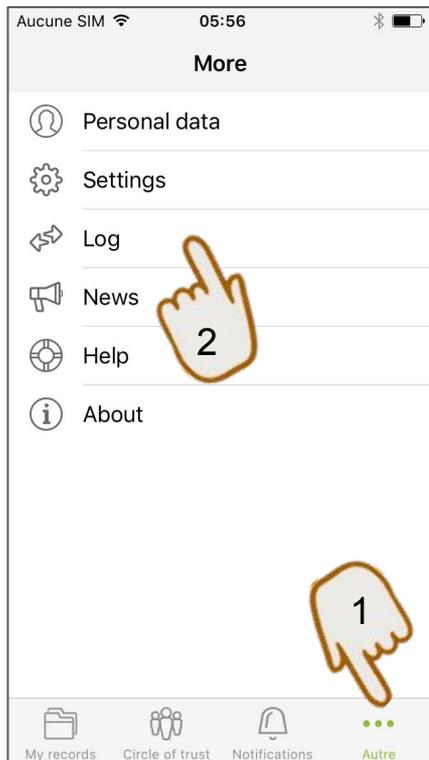

- Displays all received notifications
- Keeps track of imported documents
- Important messages

THE MENU BAR - Settings

- Language parameters
- Password management
- Measuring units options
- Personal data management

THE MENU BAR - Synchronisation

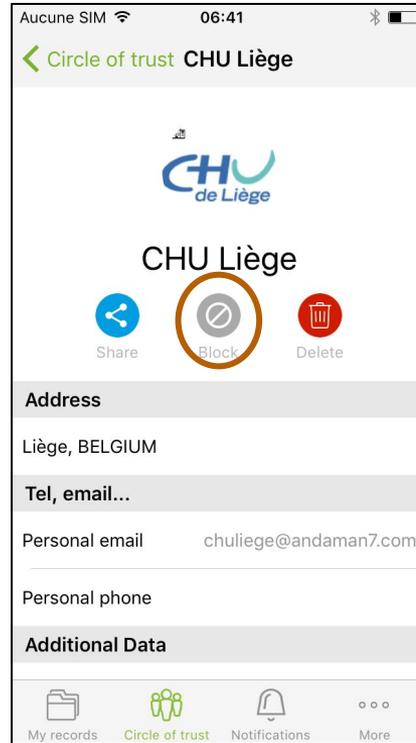

- Allows to receive and/or send medical data if specific sharing rules have been defined
- Logs all details of the synchronizations
- Notifies errors during synchronizations

CHU-LIÈGE - Receiving data from CHU-Liège

- Request the activation of the service at CHU ([online with e-ID OR directly at the hospital](#))
- Email user (login) Andaman7 **must be the same as** email given to CHU-Liège.
- You will receive an **email notification** (within 48 hours) letting you know that your documents are available in the app.
- CHU-Liège is now in your Circle Of Trust (but it has no access to your Andaman7 data).
- Only your documents created **at least** 30 days ago will be sent by CHU-Liège.
- For any more recent document, CHU-Liège will only send it **30 days** after its creation, be patient :)
- The complete procedure is available [here](#)

CHU-LIÈGE - Checklist

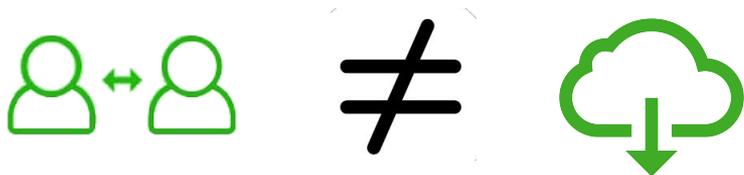

1. CHU-Liège **is** in my Circle Of Trust
2. CHU-Liège **is not blocked** (= the “Block” icon must be gray)

BACKING UP YOUR DATA - Explanation

Andaman7 is a **peer to peer** mobile app, not a cloud service.

- The data from your Andaman7 is **NOT on our servers**
- The data from your Andaman7 is **NOT in the cloud**
- Data is **only** stored on your mobile devices

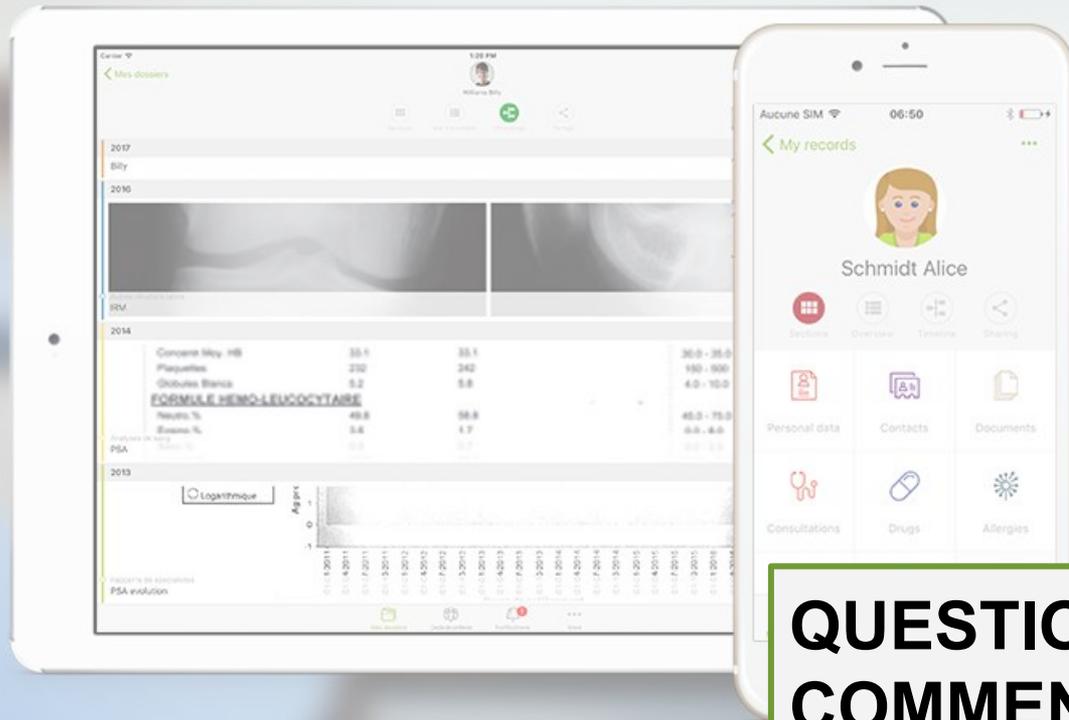

Advantages : security, flexibility, privacy

⇒ The information you enter in Andaman7 are stored only on mobile devices. Andaman7 **doesn't have access to them** and **will not be able to send them back to you** in case of problem, uninstall, loss, etc.

BACKING UP YOUR DATA - 2 methods

- 1) Share your complete health record with a person you trust
 - a) Add the person you trust in your Circle Of Trust
 - b) Create a sharing rule that shares all contents of your health record
 - c) If your device is lost, stolen, etc, your contact can share everything back to you

- 2) Use an additional mobile device
 - a) Login into Andaman7 from your additional device
 - b) Use the same Login/password as your first device
 - c) Start a synchronisation on both devices
 - d) All information is accessible on both devices.
